

Excellence in Identity Security Starts Here

You've selected a best-in-breed identity security solution in SailPoint, now the real work begins in creating a successful identity program. Regatta Solutions Group is a boutique identity integrator who uniquely has both the sole focus and track record of success with over 1,000 SailPoint identity implementations.

Led by key thought leaders who defined the IAM industry, Regatta brings the experience and insights to help you design, implement and integrate SailPoint solutions for maximum impact.

A Better Way to Implement Identity

Regatta helps IT security teams achieve the fastest path to identity success and overall time to value with our innovative Identity FastTrack™ framework and Agile Identity Workflow™. Working hand-in-hand with some of the world's largest organizations across the most complex identity environments, our team of certified SailPoint experts create comprehensive IAM programs that are both scalable and sustainable.

Whether you deploy IAM from the cloud or on-premises, Regatta offers implementation and integration services that support the core SailPoint Identity Platform.

SailPoint IdentityIQ

Using a customized approach to the processes, applications, and support required to manage the demands of any complex IT environment, Regatta transforms your identity program into an identity factory that is ultimately fully integrated across all of your core systems.

SailPoint IdentityNow

If your organization is adopting a cloud-first identity strategy, Regatta enables the fastest process for implementing and integrating SailPoint IdentityNow while delivering a high quality solution for IAM self-sufficiency and ROI.

SailPoint's Identity AI Services

Regatta works with you to define where machine learning and AI will be most beneficial to increase efficiencies and decrease risk through the enablement of Access Insights, Access Modeling, and the Recommendation Engine.

Partners in Delivery

Our goal is not just to integrate SailPoint solutions for clients, but with the client. Our "Partnering in Delivery" program ensures your team is trained and able to successfully manage independently after deployment. We want to ensure that they develop the knowledge and skills in-house to deliver alongside Regatta or with minimal assistance in the future.

Save Time and Money with Identity FastTrack™

Regatta has the innovative tools and processes you need to make an IAM implementation successful at a much lower cost and far more quickly with Identity FastTrack.

Identity FastTrack is at the core of every Regatta project integrating and operating identity-enabled applications and is based on an optimized process delivering an enhanced configuration of tools that exist in an organization's identity ecosystem.

Dashboards

Create tangible metrics in real-time to keep resources fully utilized.

Tools

Deploy agile methodologies to accelerate production and development.

Factory

Optimize your IAM development environment with an identity factory.

Training

Enable your team to manage IAM programs after implementation.

All SailPoint, All the Time

Regatta is the only identity integrator earning SailPoint's Delivery Admiral Status that has both a singular focus on SailPoint and an extensive track record of successes with SailPoint identity solutions.

Navigate a Winning Identity Strategy

Securing the enterprise goes beyond selecting the software. Contact us today to discuss how we can help you design, implement and integrate your SailPoint solutions for maximum impact.
